Justice Systems Appropriations Analysis

H-1255 to SF 615 (Committee Amendment): This amendment will be withdrawn.

H-1271 to SF 615 (Worthan): The proposed FY 2019 budget for the Justice Systems budget is \$602.5 million, including \$17.6 million in other funds. The general fund proposal for FY 2020 is \$583.8 million, which represents an increase of \$13 million from estimated FY 2019. However, most departments and agencies receive a slight increase for salary adjustments.

Department of Justice: Overall, the Department would receive \$13.6 million, with an increase of \$77,768 for General Office salary adjustments and \$330,000 increase to the Legal Services Poverty Grants.

This legislation would require the Attorney General to report all court and money settlement awards made to the state. The Attorney General must report which funds are designated to receive the moneys and cite the legal authority to designate the funds. Additionally, the Attorney General must receive approval from the Governor, Executive Council or General Assembly in order to prosecute in any other out-of-state court or tribunal, including signing onto or authoring briefs as a non-litigant in an appellate court. The authority of the Attorney General would be determined at the time the action is initiated.

The Attorney General's office would be allowed to defend in an out-of-state court all actions according to the Attorney General's judgement or when requested to do so by the Governor, Executive Council, or General Assembly.
